

## Kaphiridzinja Cook's House – Project 19/10

The Diocese of Upper Shire has a lakeside cottage called Kaphiridzinja and it is a good source of income generation. Several MACS working parties have stayed there since 2007 and enjoyed tasty food cooked by Edson. However, last year the MACS' group discovered that his roof was leaking and the house, which lies behind the cottage, was in a state of general disrepair. They agreed to fund the refurbishment of Edson's house. At last he and his family can live comfortably again, protected from the winds and rain! The work was completed in January 2011.
