Msalabani Primary School – Project 08/10

This four-roomed classroom block is in a deeply rural village in Likwenu Parish, Diocese of Upper Shire. It was built in 1985 but by 2010 it was in a state of disrepair with a leaking roof.

MACS funding for a major refurbishment project was agreed in September 2010 and the work was completed by January – record time! There are about 1450 children who attend Msalabani Primary school and before the refurbishment, several classes had to be held under a tree – not good in the rainy season between November and April!!
